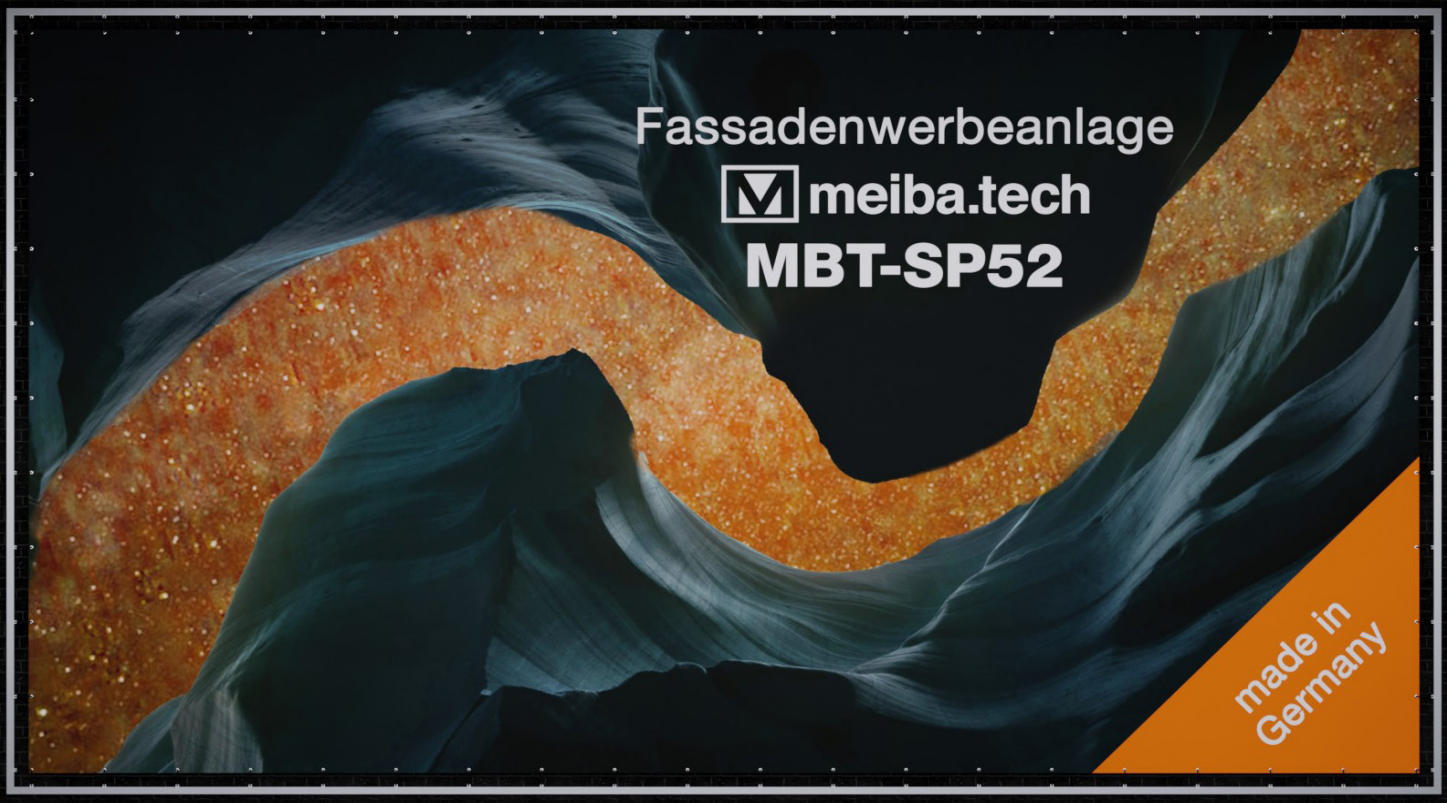
MBT-SP52: Modular facade avertising system

/en/advertising-systems/mbt-sp52/



Banner frame with great price / performance ratio

Our model **MBT-SP52** is one of our most **popular facade banner advertising systems** to mount **large-scale outdoor and indoor advertisements on facades and buildings**. The system results from the **symbiosis of high-quality, torsion-resistant aluminum profiles, concealed mounting blocks and easy-to-use grommeted advertising banners**.

The peculiarity of the system lies in the **modular design**, which allows to **display several banners in one system**. We rate the system-installation as easy, as **it can be installed in just a few steps and with standard tools**.

Of course, **this advertising system is freely configurable** and **will be manufactured according to your needs on request**.

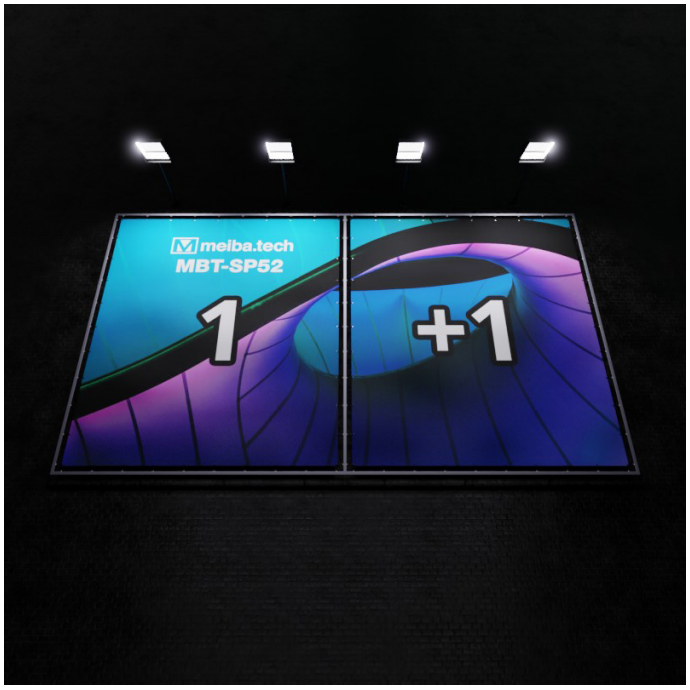
Properties

Large scale advertising

As with all of our products, the MBT-SP52 focuses on large-scale banner advertising on buildings and facades.

With this system we designed a masterpiece, exclusively made from quality materials at a more than excellent pricing, almost incomparable with most other comparable products on the market.

- Practical and easy mounting
- Tailor made sizes and oversizes
- Excellent pricing



Structure in modules

In many areas of building and facade advertising, modular systems are highly attractive to fix several advertising banners into the same system.

The MBT-SP52 offers this feature and allows you to provide facades with the number of modules you choose.

- Modular structure
- Unlimited horizontal and vertical modules
- Special constructions and setups possible

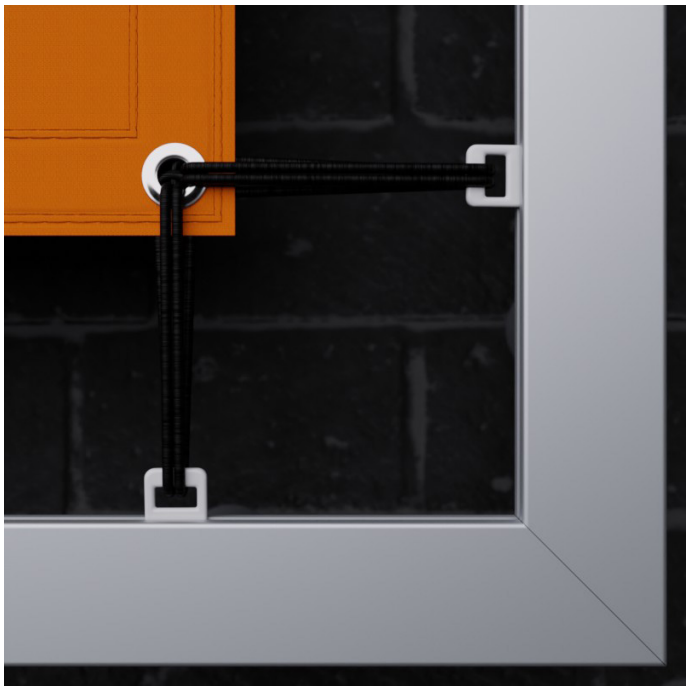
Properties

Simple installation, tensed banners

We always put ourselves in the shoes of our customers and produce advertising systems that are not only visually appealing, but also practical to use.

The MBT-SP52 combines these important properties with high-quality, yet easy-to-understand technology.

- Visually appealing
- Easy-to-understand technology
- Wrinkle-free banners
- Easy-to-do banner exchange



Spotlight illuminable

This advertising system is only suitable for front lighting with spotlights or similar lighting systems.

- Structurally suitable for front lighting
- Front lightable with Frontlit banner

Properties

RAL®-Color scheme available

If you desire, we can deliver your MBT-SP52 advertising system powder-coated in RAL® colors.

This allows you to match the color of the system to your facade or to create stylish contrasts, according to your taste.

- Default anodized aluminum
- Optional RAL® powder-coating
